

Be a Water Hero!

Easy Ways to Save Water at Home

In the Kitchen

- Only wash dishes when the dishwasher is full
- Use a bowl to wash fruit and veg
- Give leftover clean water to plants

In the Garden

- Water plants in the morning or evening
- Use a watering can instead of a hose
- Pick plants that don't need lots of water

In the Bathroom

- Turn off the tap when brushing
- Take quick showers — try **4 minutes**
- Tell an adult if a tap is dripping

Did You Know?

A drippy tap can waste **over 5,000 litres** of water every year.
Let's save every drop!

 **Together, we can be Water Heroes!**
